WHO'S USING WHAT

SECTION: Pg. 6

Bay of Quinte Mutual Insurance and insurance software developer **iter8** have reached an agreement to implement iter8's commercial automation solution. Bay of Quinte Mutual is the first customer for this product. **York Fire and Casualty Insurance** has expanded the York Fire Gateway System through the assistance of iter8. The Gateway System connects brokers to sales, service, underwriting, rating, policy, and claims systems at York Fire.

California's State Compensation Insurance Fund has selected **Information Builders'** WebFOCUS Insurance Reporting Foundation solution for its executive decision-support initiative.

Island Insurance Companies has chosen **Duck Creek Technologies'** commercial lines rating solution, which is built on the EXAMPLE Platform and will be implemented as a best-of-breed rating solution. **Preferred Health Systems** has opted for Duck Creek's healthcare solution for sales automation to provide online rating, underwriting, and proposal generation for the carrier's multiple lines of business.

Montana State Fund, the state's largest workers' compensation insurer, and **Guidewire Software**, a provider of solutions to P&C and workers' compensation insurers, announced the state fund has deployed Guidewire ClaimCenter for its end-to-end claims handling needs.

ICW Group has selected **FirstBest Systems'** advanced underwriting management system to address the property/casualty carrier's underwriting life cycle in an integrated platform.

ACE Group's international property business line has completed deployment of the **eReinsurance** placing platform. ACE property underwriters will use the Internet-based system to manage the procurement of facultative reinsurance in approximately 30 countries.

California State Automobile Association has engaged in a multiyear relationship with **Cognizant** in which Cognizant will provide a suite of IT services including business consulting, specialized software and service implementation, and support services.

Nationwide Mutual Insurance Company has selected **SAS** to strengthen the carrier's enterprise risk management program. Through operational risk management, Nationwide seeks to safeguard its customer policyholders' interests by ensuring its financial wellbeing while protecting sensitive policyholder information. **Nationwide Financial Services** has moved three separate tools previously needed

to produce variable annuity information to a single platform from **Insurance Technologies** known as ForeSight.

Xbridge Limited, an online insurance and finance broker in the UK, is deploying **Lombardi's** Teamworks BPM software suite in support of the organization's core business processes.

Amerisure Mutual Insurance Company has become the first company to integrate fully ISO Rating Service from **ISO Insurance Technology Solutions** into its policy administration system. Amerisure implemented ISO Rating Service for commercial auto in all ISO-supported states to process quotes, policies, endorsements, and renewal transactions.
