

Amerisafe selected FirstBest to improve underwriting efficiencies and strengthen on-line communications with agents.

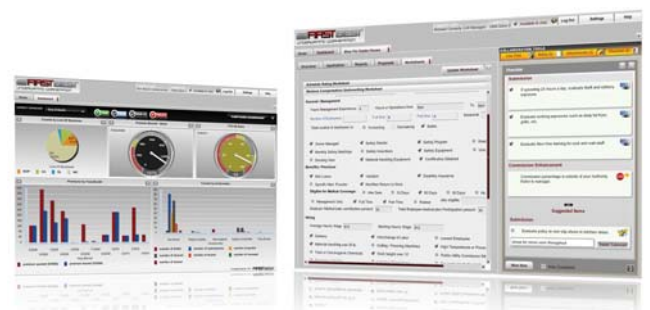

Kelly Goins
Senior VP, Underwriting
Amerisafe, Inc.

The FirstBest UMS™ combines a next generation underwriting workstation with a real-time agent portal. It helps carriers bring in the business they want and get the quotes out faster, more accurately and with complete visibility into the process.

AMERISAFE, Inc., (NASDAQ: AMSF) a specialty writer of workers' compensation insurance for hazardous industries, is leveraging the FirstBest UMS to enhance agent collaboration and service, to shorten the turn-around time from submission to quote and to generally improve efficiencies in underwriting processes.
